

Hi there,

You'll be joining us for the league or competitive play! Yay!

There are a couple of prerequisites that must be completed before you arrive.

First, you'll need to create an account on the DUPR site. You can create that account here: <https://mydupr.com>

You can also download the DUPR app from the iPhone app store or the Google Play store.

- [DUPR iPhone](#)
- [DUPR Android](#)

Second, you'll need to download the SWISH Sports app from the iPhone app store or the Google Play store.

- [SWISH Sports iPhone](#)
- [SWISH Sports Android](#)

After downloading the SWISH Sports app, you must create an account. Once your account is created and you're logged in, you'll need to follow these steps (***this is the most important process***):

1. Go to your "Profile" page (it's the button on the bottom right).
2. Tap the "+ Add DUPR ID" text link on the top right of the page.
3. Login to your DUPR (the account you created above).

Completing these steps will link your DUPR account to your SWISH app.

If you have an issue with any of the above steps, come in 15-20 minutes early, and we'll connect you.

Lastly, when you arrive for the league, follow these steps:

1. Find the iPad with a QR code for your league.
2. Take out your phone and open the Camera app.
3. Point the camera at the QR code to scan it, and then click on the link that appears on-screen.
4. The link will load the SWISH app automatically.

If you need help, other players in the league can help or find the league coordinator for the day, and they'll connect you.

~ Nathan
